

UNDERSTANDING THE IMPACT OF TRANSPORTATION OPERATIONS: TRAFFIC INCIDENT MANAGEMENT

FRIDAY, MARCH 25, 10-11 AM - CENTRAL TIME (CT)

TRANSPORTATION STEM WEBINAR SERIES

Attention K-12 students and teachers! Join the National Network for the Transportation Workforce for our March Transportation-STEM session! We are excited to announce that the National Operations Center of Excellence and the Maryland Safety Service Patrol (SSP) are teaming up to provide students with an understanding of the role of safety service patrols and the direct impact they make on the lives of the traveling public. The session will also include discussion of how the safety service patrol both informs and responds to the Traffic Management Center (TMC) and the varied career paths available in this area. Don't miss meeting this diverse group of industry professionals and visiting with the SSP and the TMC via a livestream event!
